

INLINE® KVM SWITCH, 2-WAY, HDMI 8K@60Hz, USB 3.2, with IR & RS-232

- **Two PCs, one workspace:** Control two computers with just one mouse, keyboard and HDMI display – ideal for the office and home office.
- **Highest image quality up to 8K@60Hz:** HDMI 2.1 with Dolby Vision, HDR10+ and 4K@144Hz – brilliant display even for gaming or image editing.
- **USB 3.2 Gen.1 sharing with 5 Gb/s:** Use printers, storage devices or webcams on both PCs – without switching cables.
- **Versatile control options:** Switch via button, hotkey, IR remote control or RS-232 – full control in any environment.
- **Professional signal management:** No audio/video lag, HDCP 2.3, CEC and ESD protection – reliable in IT and server structures.

The InLine KVM Switch 2-way with HDMI 2.1 connects two computers with just one monitor, one keyboard and one mouse – ideal for professional IT environments, home offices or training rooms. It allows easy switching between both PCs and supports resolutions up to 8K at 60 Hz, 4K at 144 Hz and modern HDR standards such as Dolby Vision and HDR10+.

In addition to video and audio, four USB 3.2 Gen.1 ports allow peripheral devices such as printers, cameras or external drives to be shared. Switching between the two systems can be done via front buttons, hotkeys on the keyboard, an IR remote control or an RS-232 interface – for maximum flexibility in control.

The KVM switch supports all common audio formats including Dolby Atmos and DTS-HD. Thanks to HDMI 2.1, HDCP 2.3, CEC, robust construction and high ESD protection, the device is not only powerful but also particularly reliable in continuous use. A comprehensive accessory package with HDMI and USB cables, power supply, RS-232 connector and mounting material is included in the scope of delivery.
