

## INLINE® USB KM-SWITCH FOR KEYBOARD & MOUSE 2 PC

Switch Easily by Using Your Cursor Sliding Across Screen Border. The switch is a 2-port keyboard mouse switch that features our latest Border Switch and True Transparent USB (TTU) Emulation Technology. The Border Switch Technology allows mouse slideover seamlessly between two distinct PC monitors. Thus two distinct desktops can combine into one virtual extended desktop. The TTU Technology can ensure ultimate compatibility to all types of keyboards and mice, giving users a best experience in seamless keyboard mouse switching. Besides, the device supports both Windows based PC and Mac OS.

- Border Switch Technology switches seamlessly among two PCs
- Switching just by moving mouse cursor across screen border
- Two distinct desktops combined into one virtual extended desktop
- Specially design to be used with Tablet PC with its cradle
- True Transparent USB Emulation Technology for ultimate compatibility
- Hotkeys available
- 2 Port USB A male to USB A female
- Cable length: 1.2m
- Supports Mac OSX 10.3 above and Windows (98SE and later)

**Please note:**

The InLine KVM Switches are designed for office and home office applications as well as for monitoring and controlling multiple computers from one workstation. However, the KVM Switches are not suitable for gaming accessories such as mice and key-

boards with programmable special keys, nor are gaming monitors with high frequencies of 120 Hz or more supported. The hot key function for the keyboard only works on the designated console USB port, connected via the USB hub ports, hot key control is not possible.

### PC / Macintosh
