

INLINE® CABLE KVM SWITCH, 2-PORT

Displayport 1.2, 4K, USB, Audio

This device is a 2-port DisplayPort USB cable KVM switch with two integrated USB/KVM and audio/micro combo cable sets and a QuickSwitch button for remote control via cable to quickly connect your computers. You can access, control, boot and restart multiple multimedia computers with just one USB keyboard, mouse, monitor and speaker set with mic.

To quickly switch between two computers, use the QuickSwitch button or the switching software installed on the computers! On Windows and Mac platforms, it provides an innovative, user-friendly KVM switching software - a small Windows/Mac client application to support KVM switching operations such as selecting PCs and programming hotkey sequences, auto-scanning, programming autoscan delay time, independent/simultaneous audio & PC switching, etc.

This DisplayPort USB cable KVM switch offers USB 2.0 interface technology for Plug&Play and hot-plugging. In addition to a mouse or keyboard, other fast USB devices can also be connected to the two USB 2.0 ports. Users benefit from maximum flexibility and user-friendliness thanks to the compact design in a single device.

- 2-way KVM USB DisplayPort switch with audio
- 2 integrated cable sets 1.2m, with 1x DisplayPort plug, 1x USB plug, 2x 3.5mm audio plug
- Switch with 1x DisplayPort socket, 2x USB 2.0 socket, 2x 3.5mm audio socket
- Cable remote control with QuickSwitch button, 1.5m
- 2 LEDs to indicate the active PC
- Max. Resolution: 3840x2160 pixels @ 60Hz
- DisplayPort 1.2 compatible
- Power supply via USB, no external power supply unit required

- Switching via quickswitch button or programmed hotkey sequences
- Compatible for Windows and Mac

Please note:

The InLine KVM switches are designed for office and home office applications as well as for monitoring and controlling multiple computers from one workstation.

However, the KVM switches are not suitable for gaming accessories such as mouse and keyboards with programmable special keys, nor are gaming monitors with high frequencies from 120Hz supported.

The hotkey function for the keyboard only works on the designated console USB port; hotkey control is not possible when connected via the USB hub ports.

TECHNICAL DATEN:

- Article height: 2 cm
- Article length: 130 cm
- Article width: 10 cm
- Audio loudspeakers: Yes
- Audio microphone: Yes
- Audio outputs per console: 3.5mm jack x2
- Audio per CPU: 3.5mm jack x2
- Brand: InLine®
- Cable length f. computer: 1.2 m
- Cable remote control: Yes
- Data rate: 480 Mb/s
- Design: Wired
- DisplayPort standard: 1.2
- Extension (daisy chain or cascading): No

- Incl KVM cable set: Fixed
- Max. resolution: 3840x2160 / 60Hz
- Number of CPU: 2
- Number of consoles: 1
- Peripheral outputs per console: USB-A female x2
- Periphery inputs per CPU: USB-A male x1
- Screen connectors per console: 1
- Type 1: KVM switch
- Type 2: 2-fold DisplayPort KVM
- Type of packaging: InLine® Header with Euro perforation
- USB peripherals: No
- USB specification: USB 2.0
- Video inputs per CPU: DisplayPort x1
- Video outputs per console: DisplayPort x1
